

# *2LWEL*

Tabletop Ahyoheek runs in rounds and can include from 2 to 5 players. The goal is to win a game by collecting a set of three of any symbol. Tournament is Double Elimination- two losses and you're out.

## **Playing a Round**

A round of Ahyoheek is much like Rock-Paper-Scissors, but with different symbols. Pen writes in Book, Book crushes Beetle, Beetle provides ink to Pen. So:

Pen beats Book  
Book beats Beetle  
Beetle beats Pen

Each person in the round chooses a card and places it face down. Then everyone turns over their cards at once and the round is scored.

First, Each person should count the number of people they beat. Then they should count the number of people who beat them and subtract that from the first number.

- Whomever has the highest number of points wins the round and gets a marker that corresponds to the symbol they won with.
- If all players play the same symbol, no points are awarded and no one wins the round.
- If there is a tie for the number of points, then the people tied all win the round. The exception to this is if ALL players tie. Then no one wins the round.

## **Playing a Game**

Rounds are played with markers being won for each round, until a player has collected three markers for any symbol. That player wins the game.

In case of more than one player collecting a set of three at the same time, the one with the most collected symbols in total wins.

If there is still a tie, the tied players play in sudden death rounds until a winner is determined.

## Example Rounds

### Example 1

Name	Symbol	Wins	Losses	Total Points
Atrus (A)	Book	G +1	Y -1	0
Douglas(D)	Book	G +1	Y -1	0
Rand (R)	Book	G +1	Y -1	0
Gehn (G)	Beetle	Y +1	A,D,R-3	-2
Yeesha (Y)	Pen	A,D,R +3	G -1	+2

Yeesha beats three, but is only beaten by one. She wins and gets a Pen.

### Example 2

Name	Symbol	Wins	Losses	Total Points
Atrus (A)	Book	G,Y +2	D,R -2	0
Douglas(D)	Pen	A +1	G,Y -2	-1
Rand (R)	Pen	A +1	G,Y -2	-1
Gehn (G)	Beetle	D,R +2	A -1	+1
Yeesha (Y)	Beetle	D,R +2	A -1	+1

So while Atrus, Gehn and Yeesha all beat 2 people, Atrus was beat by two people, knocking his points to zero. The round goes to Gehn and Yeesha, who both get a Beetle.

### Example 3

Name	Symbol	Wins	Losses	Total Points
Atrus (A)	Book	R +1	D -1	0
Douglas(D)	Pen	A +1	R -1	0
Rand (R)	Beetle	D +1	A -1	0

Only three people playing here and they all played something different. So all players tie and no one gets a symbol.
